

Primus TEC 6-58W 3h EVG Intelight

The **Primus TEC 6-58W 3h EVG** by Intelight is a compact emergency lighting unit designed for fluorescent luminaires equipped with an electronic ballast (EVG). Installed internally within a luminaire, this emergency kit ensures continued lighting operation in the event of a mains power failure.

The unit supports fluorescent lamps from **6 to 58 watts** and delivers an **emergency duration of 3 hours**. A **manual test function** allows easy inspection and functional testing. The Primus TEC is suitable for professional lighting installations in commercial buildings, offices and industrial environments where emergency lighting is required.
