

LED Teapot Earl Clear E27 4W 2200K

With the Teapot Earl (what's in a name?), Bailey has something unique to offer. They are LED filament lamps according to the Spiraled® principle (twisted filament, 2200K dimmable) in the shape of a teapot. This model should of course not be missing in any coffee and tea room or other environment where tea is served. The models are so special that they are protected by Bailey at the European trademark office, so that they remain unique. With the accessories and cables from Bailey, many beautiful combinations can be made that enrich the interior. Moreover, these lamps are energy efficient.
