

LED Magnum E27 4W DIM 150Lm 919 Gold

With the Shapes, Bailey has developed special shapes of LED filament lamps that respond to the atmosphere and trends in the light market. With a nod to the catering market where many of the Bailey products are used, each model within the series has a meaningful name that is related to the shape. A number of shapes are protected as designs as intellectual property by the relevant European authority. Each shape adds atmosphere and character and is therefore more than just an energy-efficient light source.
