

## E27 Led filament A60x105 mm 12-42V 2W(18W) 827 Frosted NonDi

LED filament lamps can be seen as the modern sustainable version of the old incandescent lamp. The so-called filaments replace the traditional filament, making the lamps many times more energy-efficient and last much longer. This low voltage series is especially suitable for rooms where one is not on the usual high-voltage network. Think of boats, cellars, garages and storage areas.
