## Feature

|                                    |        |                                            |                  |
|------------------------------------|--------|--------------------------------------------|------------------|
| Type of UV radiation:              | UV-A   | Lamp type:                                 | Fluorescent lamp |
| Black light lamp:                  | Yes    | Socket:                                    | G5               |
| Suitable for air disinfection:     | No     | External ballast required:                 | No               |
| Suitable for water disinfection:   | No     | External ignitor required:                 | Yes              |
| Suitable for personal well-being:  | No     | Integrated starter:                        | No               |
| Suitable for insect trapping:      | No     | Dimmable:                                  | No               |
| Suitable for medical applications: | No     | Lamp power:                                | 4 W              |
| Suitable for reprography:          | No     | Lamp voltage:                              | 29 ~ 29 V        |
| Suitable for sun-tanning:          | No     | Burning position:                          | Random           |
| Total length:                      | 150 mm | Weighted energy consumption in 1000 hours: | 5 kWh            |
| Diameter:                          | 16 mm  | Average nominal lifespan:                  | 8000 h           |
| Lamp shape:                        | Rod    | Mercury content:                           | 4.4 mg           |
