

## Analogue Time Switch 2-Channel Thorgeon

### Analogue Time Switch 2-Channel Thorgeon

|                 |                                                                                                                       |
|-----------------|-----------------------------------------------------------------------------------------------------------------------|
| Article number: | TH 18004                                                                                                              |
| Status product: | 126 - CURRENT                                                                                                         |
| Changed last:   | 20-12-2024                                                                                                            |
| Brand:          | Thorgeon                                                                                                              |
| Type:           | Time switch analogue                                                                                                  |
| ETIM Group:     | EG000062 - Devices for distribution board-/surface mounting                                                           |
| ETIM Classes:   | EC002304 - Analogous time switch for distribution board                                                               |
| Synonym:        | Analogous time switch for distribution board, Main clock, Timer, Timer clock, Twilight switch, Week clock, Year clock |

## Feature

|                                    |             |                                          |         |
|------------------------------------|-------------|------------------------------------------|---------|
| Mounting method:                   | DIN rail    | Shortest switching time channel 2:       | 15 min  |
| Number of channels:                | 2           | Program shift divide 1:                  | 0 min   |
| Supply voltage:                    | 110 ~ 230 V | Program shift divide 2:                  | 0 min   |
| Voltage type (supply voltage):     | AC          | Automatic switching summer-/winter time: | No      |
| Frequency supply voltage:          | 50 ~ 60 Hz  | Suitable for manual operation:           | Yes     |
| Autonomy in hours:                 | 150         | Switching preselection:                  | No      |
| Accuracy per day:                  | 2 s         | Nominal switching current at 250 V AC:   | 16 A    |
| 60 min program:                    | Yes         | Max. switching power LED:                | 1100 W  |
| 24 h program:                      | Yes         | Potential free switch contact:           | No      |
| Weekly program:                    | No          | Degree of protection (IP):               | IP20    |
| Annual program:                    | No          | Width in number of modular spacings:     | 3       |
| Mains synchronous:                 | No          | Width:                                   | 53.5 mm |
| Quartz controlled:                 | Yes         | Height:                                  | 90 mm   |
| Shortest switching time channel 1: | 15 min      | Depth:                                   | 65.5 mm |

## Packaging data

|              |          |
|--------------|----------|
| Weight       | 0 gr     |
| Customs code | 91070000 |
