

Digital Astronomical Time Switch 2-Channel Thorpeon

Digital Astronomical Time Switch 2-Channel Thorpeon

Article number:	TH 18005
Status product:	126 - CURRENT
Changed last:	20-12-2024
Brand:	Thorpeon
Type:	Time switch Digital astronomical
ETIM Group:	EG000062 - Devices for distribution board-/surface mounting
ETIM Classes:	EC002305 - Digital time switch for distribution board
Synonym:	Digital time switch for distribution board, Main clock, Timer, Timer clock, Twilight switch, Week clock, Year clock

Feature

Mounting method:	DIN rail	Quartz controlled:	Yes
Number of channels:	2	Radio-controlled:	No
Supply voltage:	230 ~ 230 V	Radio-controlled (DCF77):	No
Voltage type (supply voltage):	AC	GPS (global positioning system):	No
Frequency supply voltage:	50 ~ 60 Hz	Contact type:	Normally open contact (NO)
Autonomy in years:	4	Number of contacts:	8
Accuracy per day:	2 s	Shortest switching time channel 1:	1 min
Text guidance in display:	Yes	Shortest switching time channel 2:	1 min
External programming:	No	Automatic switching summer-/winter time:	No
With memory card:	No	Suitable for manual operation:	Yes
60 min program:	Yes	External pushbutton input:	No
24 h program:	Yes	Switching preselection:	No
Weekly program:	Yes	Nominal switching current at 250 V AC:	16 A
Annual program:	Yes	Max. switching power LED:	200 W
Holiday program:	Yes	Potential free switch contact:	No
Impulse program:	Yes	Degree of protection (IP):	IP20
Cycle program:	No	Width in number of modular spacings:	2
Astro program:	Yes	Width:	36 mm
Random program:	No	Height:	86.5 mm
Hour meter:	No	Depth:	65.5 mm
Mains synchronous:	No		

Packaging data

Weight	0 gr
Customs code	91070000
